### **2.5.1 - Mechanism of internal assessment is transparent and robust in terms of frequency and mode.**

Reforms in the examination procedures and processes including Continuous Internal Assessment (CIA) have brought in considerable improvement in Examination Management System (EMS) of the Institution. The Institute follows Continuous Internal Assessment as it not only firmly strengthens the effectiveness of both teaching and learning processes but also encourages the understanding of teaching as a developmental process that evolves over a period with suggestions and valued inputs from the learners. Continuous assessment involves prudently keeping records on the students continuously and systematically considering the periodic performances of students in academic activities such as assignments, quizzes, cases, projects, etc. Internal & External Components: To meet the Continuous Internal Assessment process, the evaluation of every course is divided into two components, Internal and External with the weightage of 30% and 70% respectively. The External component is the end semester examination of the courses while the internal component includes Quizzes, Cases, Assignment Submission, Class participation, Classroom engagement, Online Assignments, Cases and Quizzes... etc
